

Pattern Development Report : **number**

Report Title: **Category** Report

Status of the Pattern

Date Generated: **[Insert Date Here]**

Prepared By: **[Name]**

1. Status of the Pattern

Brand: **Brand**

Size Category	Total Number of Patterns	Total Approved Patterns	Total Revised Patterns	Total Dropped Patterns
Small	[Value]	[Value]	[Value]	[Value]
Medium	[Value]	[Value]	[Value]	[Value]
Large	[Value]	[Value]	[Value]	[Value]
Extra Large	[Value]	[Value]	[Value]	[Value]

The Status of the Pattern report highlights the performance and efficiency of the pattern approval process, showcasing significant approvals while identifying areas that require revisions or improvements. These insights are crucial for optimizing the pattern development workflow across various size categories.

2. Fit Issues Analysis

Brand : **Brand**

Reasons	All Sizes	Small	Medium	Large	X-Large
Strap Width Too Loose	[Value]	[Value]	[Value]	[Value]	[Value]
Body Crown,Width,Too Loose	[Value]	[Value]	[Value]	[Value]	[Value]
Body Crown,Width,Improper Curve	[Value]	[Value]	[Value]	[Value]	[Value]
Crown,Diameter,Too Wide	[Value]	[Value]	[Value]	[Value]	[Value]

The Fit Issues Analysis Report provides valuable insights into the common challenges encountered in ensuring proper fit across different product sizes. By analyzing the data, the report highlights recurring problems that affect the overall quality and comfort of the items. It identifies trends in fit discrepancies across various size categories, offering a clear understanding of where adjustments may be needed. This information serves as a foundation for improving design and production processes, ensuring better alignment with customer expectations and enhancing the overall product experience.

3. Performance Overview

Brand Company	Total Patterns Submitted	Approved Patterns	Frequency
UGG	105	86	81.9%
VANS	40	28	70%
THE NORTH FACE	52	37	71.15%
COLEHAAN	44	34	77.27%

The Performance Overview Report provides a summary of pattern submission and approval performance across various companies within the selected product category. It highlights the total number of patterns submitted, the number of patterns approved, and the approval frequency for each company. This data helps to evaluate the efficiency and consistency of the approval process and identify companies with higher approval rates as benchmarks for best practices. Additionally, it reveals areas where improvements may be required to enhance approval outcomes and streamline the workflow.

Adds on

All Users

- yung sa notifications dapat nakalink na don sa mismong record. pupunta na sa mismong record after maclick yung notif. (pattern maker and sfd ui)

Pattern Maker

1. create pattern records

- automated generation of pattern number
- conditional statement kada pattern id number (add notif)
- don sa part ng brand, maglagay ng filter or dropdown to choose the brand
- para mapadali ang pagsubmit at wag input ng input, magdadagdag na lng ng button para maisubmit na all-in one ang sizes from S-XL (add notif and confirmation)

2. Design Pattern

- remove design pattern with archive (optional)

Senior Fashion Designer

Pattern records

- sa pattern records, maglagay ng filter para sa sizes

Dashboard

- sa dashboard, baguhin ang shade nung kulay dilaw yung dilaw tlga
- mas ok kung gawing percentage ang sa donut chart pag hinahiligt
- dapat may pangalan ang x & y axis sa lahat ng charts and graphs
- gawing integer ang mga frequency sa x axis ng charts
- lahat ng chart na may legend dat ma filter
- sa time to approval, gawing marker na lng ang mga dots or points

Adjustment by pattern

- Green: On target (within 5% of the auto-adjusted value).kung baga yung value nah na meron sa final measurement ng auto adjustment ng size material and material
- Red: Off target (>5% deviation). eto pag nag exceed sya doon sa final measurment na meron doon sa auto adjustment sa system kung baga parang mag babase na sya revision na di natak ng auto adjustment feature , pag submit through in Design Patterns

When hovering over a line graph point, display details:

- Standard Measurement
- Final Measurement
- Status (on target, off target)

Pattern Reports –

- ayaw ng pindot pindot lalo sa fit issues Analysis; so tagtagin ang lahat ng filter. ilista na lng ang merong mga frequency

Reports

- download feature sa reports into pdfs, eto na mismo yung format nasa taas
